Dating Skills for Geeks

*Workshops Designed to
Help You Develop Your
'Dating Fu'*

*When it comes to
technology, you're a
master.*

*When it comes to finding romance,
you're a little lost.*

Formulas. Logarithms. Tree structures.

Patterns.

This is what's missing from the world of dating and romance: tools you can use to apply logical, repeatable patterns.

We can help.

Our workshops prepare you to:

- π Identify approach methods
- π Enhance your appearance
- π Demystify body language
- π Implement flirting techniques
- π Build an interaction tool kit
- π Depersonalize rejection
- π Design effective dates
- π Maintain new and existing relationships

*We help you learn effective methods
for connecting
with your potential mates.*

Some of our workshops include:

- π Where and How to Meet People
- π Building Your Personal Style
- π Flirting Basics
- π Planning and Executing First Dates
- π Maintaining the Romance in an Established Relationship
- π Ending a Relationship Compassionately

Our Approach

We know you learn best when you learn by doing. We emphasize:

- π **Active learning:** you will practice what you learn through a variety of learning activities
- π **Tools and tips:** we provide you with materials and exercises you can use later to continue improving your skills
- π **Real world examples:** sometimes dating can be pretty cruel, and we paint a realistic picture of what you're likely to encounter, and how to plan accordingly
